EAGLE PACIFICA FUNERAL SERVICE VANS

Eagle Coach Company's Chrysler Pacifica Funeral Service Vans are as dignified as they are versatile.

With the foldable casket floor in place, they can be used for removals or to transport urns, caskets and shipping containers.

The casket floor flips over to reveal Stow 'N Go® seating and two retractable aluminum storage trays, allowing the van to be used as a personal transportation vehicle and to transport flower arrangements.

Oversized caskets and shipping containers easily fit into the rear casket compartment.

The standard aluminum cot mate is lightweight and features a flip-down ramp to facilitate loading and unloading.

Stow 'N Go® seating and two aluminum floral trays are accessible when the hinged casket floor is folded over.

A portable Urn Enclave is also available as a dignified solution for transporting urns.

A beautifully-embroidered interior landau panel adds a nice accent to the OEM Chrysler interior for funeral services.
